## *1. Introduction*

---

To begin with, mercy and benevolence innately embedded in mankind brings with it a sense of responsibility and accountability. This inherent nature, called humanity plays major role in serving the purpose of brotherhood. It is a matter of immense delight and contentment to pen down the prospects and outlook of our organization which has been started years back, with the intention of eradicating illiteracy and creating awareness among the people of underprivileged section of our society. Our organization includes members from different spheres of life who are conscious enough to sympathize with the people of that background and locale. We are basically running centres for non formal primary education and social upliftment, which has been providing free education and imparting better moral and social values along with essential backups and support to our disadvantaged brethren. These people confronted with consistent state of crisis, financially and socially, have lost the motivation or access to education and sometimes both. The deprivation and abandonment they have faced for decades in the society has led them to live a life full of negligence and disgrace. These factors left them with no other option but to keep their children away from their fundamental rights of providing primary education and a respectable social lifestyle and outlook. The need of the hour is to restore their dignity and grace, remove the impediments from their minds, make them capable of chasing their dreams, and inspire them to compete in this highly competitive world. This group, aiming to build a framework, to serve the very purpose of educating the downtrodden section of society, initiated its work by opening a school in Mallah Ka Nagla, which is now known as Hamara School, Aligarh. There are 492 students in the system.

## 2. Objectives

---

This endeavour strives hard to end the dearth of education.

- ❖ To revive the significance of literacy and benefits of education in their minds.
- ❖ To remove the blemish of backwardness associated with them.
- ❖ To develop an awakened frame of mind, this will contribute in blooming of society, in turn, the nation.
- ❖ To reinstate the urge and eagerness to compete and succeed among others.
- ❖ To develop a sense of fondness in the children and attach them to the mainstream education system.
- ❖ To cultivate tolerance and harmony among the followers of different religion and cultures.
- ❖ To offer better healthcare through free medical camps.
- ❖ To help those under acute financial crisis with the means of self-employment.
- ❖ To create a sustainable system where alumni of the school contribute towards running it in the future.
- ❖ To make them realize and comprehend the purpose of their creation and existence.
- ❖ To elevate the spirit of mutual brotherhood.
- ❖ To liberate them from the abandonment and desertion faced by them.
- ❖ To arouse a feeling of civic sense, responsibilities and duties towards the members and resources of the society.

### 3. Mechanism

---

The children residing in slums in India fail to aspire for a better future because of the confined notion and thoughts prevailing in their minds. The irresistible state of deprivation and dispossession lead them to the endless way of pettiness. They are unable to even imagine a better circumstance simply because they are either not aware of it, or are not competent enough to understand it.

Social work groups in general apply a much-committed yet inefficient approach. They identify children who are already in their early teens as the section of the population that is in need of value education. This is primarily due to the fact that by this age these youngsters are part of a scene that is constitutionally termed as 'child labour'. The results of the attempt to educate at an age when an individual is already accustomed to his/her surrounding and is overburdened by the social and family pressure are far too exhausting and far less promising.

In the year 1998-99, a small group of young students primarily associated with Aligarh Muslim University, voluntarily constructed a primitive setup to encourage and promote this section of the population to join the evolving trend of what is called education. This setup has now grown into the Informal Primary Education System (IPES). With the purpose of removing misconceptions/inhibitions and bringing about a wide scale realization of the significance of moral and modern education in the underprivileged sections of the society, the group is involved in the following related activities apart from other supporting efforts. It provides the necessary guidance and tuition to young children of all ages (specifically at the start of the school going age) so that they may meet the minimum eligibility requirements for joining any existing formal education system in the vicinity.

The group offers this service free of cost so as to minimize the financial burden on the concerned families/guardians.

After preparing them for school, the group facilitates the admission of such students into a formal system at least possible monetary exchange or alternatively arranges partial sponsors for such candidates. It should be noted that a nominal financial contribution is compulsory on part of the candidate parents in order to inculcate a sense of responsibility and investment in them and thus control the dropout rate.

The group struggles in the most challenging situation to impart consistency and stability in their mental framework, and minimize dropout/withdrawal rate from the system by tackling all the cases individually. It monitors the progress of the students who are successfully admitted in the formal systems on a daily basis during evening classes (that include tuition, recreation, moral instruction, etc) so as to overcome the absence of an ideal ambience and proper guidance at home. This also prevents these youngsters from imbibing crude habits prevalent in their social habitat as they spend their maximum time under the observation and vigilance of our volunteers. These kids are to be made determined and persistent so much so that they don't allow the wrong temptations and traps of the society to influence or deviate them rather, they should be able to leave an impact on others and bring about a change in their society.

This group strives hard and aims at building a new society altogether, having disciplined individuals who are educated, socially aware and conscious of their purposeful existence. These attributes consequently contribute in producing responsible and resourceful citizens of society. This can only be accomplished if the grooming process is initiated at the very fragile age of infancy. Students are encouraged to purchase their own books with their hard earned money or of their parents, to develop an affinity and caring attitude towards books and notebooks.

Regular tests/meetings are conducted to judge the performance of the students and teachers as well. For checking members take classes to assess performance. To maintain the teaching quality, only paid teachers and members are allowed to take classes.

## 4. History

---

A group of students, in the midst 1998-99, confronted the growing concern over the despicable state affairs of underprivileged population existing on the outskirts of University premises (under the shadows of prominent residential areas of high literacy rate) comprising mostly of rickshaw-pullers, daily wagers, labourers, artisans, 3rd and 4th grade employees of the University, etc, with no education and social awareness.

These students then traced the root of the problem as illiteracy and finally, determined to contribute their bit in all possible ways for the infusion of education and sound social, moral values into these underprivileged localities.

With the encouragement and guidance of some interested teachers, they set forth to implement the idea. At first, a site, adjacent to Sir Syed Nagar, known as 'Mallah Ka Nagla' was chosen, which also happened to be the right place to operate as this area is a habitat of thousands of underprivileged children, men and women, young and old, seriously deprived of the basic amenities such as education, healthcare, sanitation, and the list continues.

So, initially a door to door survey was undertaken and parents were convinced which in itself was an experience to narrate, that they agreed to send their wards for free education to the local mosque, which was the only option as the funds, meager as they were, had been used to buy books, notebooks, blackboards, stationary goods and such other things.

Some members of the group were assigned the task of teaching and others managed the associated necessities such as further surveys, local interaction, fund raising, etc. During the initial period, this mission had to go through several hurdles, criticism and objections posted by the local inhabitants, out of their utter ignorance followed by threat to the children and parents against sending their wards to school and lastly voices were raised against the 'misuse' of mosque for teaching non-Muslim children along with Muslim children, and particularly for teaching English, a language, according to them, which cannot be taught or spoken in a mosque.

Later on, the financial condition strengthened, and the school was shifted to a hired building. Then teachers were recruited on salary to give the process of learning a professional touch.

After a year, results began to appear and effects began to be noticed and out of sheer sense of service and commitment, the hearts of the local people were won over, and over these years, the number of students joining the free education system has increased appreciably, as do their faith in education. People in that locality accepted and trusted this system, which is genuinely manifested by the acknowledgement gained during the course of time.

Since last four years, more than 150 students have been uplifted to formal education system after being admitted in recognized schools of Aligarh on full fee or half fee concession. The successful pursuance of this noble cause owes a lot to all the active and passive members who have helped and remained by our side with unfaltering faith.

## 5. Basic Academic Arrangement

Though all the major decisions regarding the management and curriculum are taken at general meetings of teaching staff and group members, the responsibility of handling day to day issues, related to setting up time table, admissions, holding tests and examination, parents' meeting, arrangement of teachers, purchase of stationary goods, students' problem, etc. is consigned to members of academic management.

Since its inception, as this literacy mission geared up and more and more local children thronged the school which resulted in the addition of new classes in every session, the curriculum has been assiduously reviewed and given a proper pattern in accordance to the latest syllabi and trends. The books that have been introduced are at par with those being used in the primary sections of all renowned schools of Aligarh.

### **ACADEMIC EDUCATION**

Covers all the basic subjects at primary levels such as Mathematics, English, Hindi, Science and Urdu in all eight standards i.e., PRE-NURSERY to Class - V, with additional subjects of Moral Education, Computer, Science, Social Science which are being taught from K.G. to Class - V. Pre-nursery class was introduced in the year 2011 keeping in mind the overwhelming response of people as a result of increasing awareness among them.

For all the standards i.e., from PRE-NURSERY to Class V, the pattern followed is similar as of the other formal systems so as to enable the students to qualify for well established institutions of formal education after passing from this school.

### **MORAL EDUCATION**

It includes the basic aspects and fundamentals of moral education. The main focus is on instilling better opportunities in life for underprivileged children through Moral education. Interactive discussions are often encouraged to open up the heart and mind of students regarding the synchronization, incorporation tolerance and harmony among the other citizens of the nation. Teachers have been especially recruited for the above-mentioned purpose to nurture and mould young minds to become responsible human beings and beneficial contributors to the society.

### **FUND RAISING**

In the way of establishing a strong framework and a functional system, there is a need to overcome the hurdles and restrictions which are being encountered in the path. Financial deficit always affect proper functioning of the system, and hence fund raising becomes a prerequisite for running the system effectively. Raising fund for the successful and consistent pursuance of this cause is through mutual collection, only at the group level and a part from teachers of the University and other zealous students. The members entrusted with the task of financial affairs keep record of the fund. For collection of funds some most

active members of the group approach to donors, within and outside the group, monthly/bimonthly/six monthly/yearly.

To maintain a healthy and sufficient flow of money, few members contribute a self-determined amount, regularly on monthly/yearly basis. New donors and occasional donors are encouraged to donate on a regular basis though a lesser amount as occasional help can't be relied upon for long term sustainable system.

The functioning of the school is being vaguely managed by the contribution and favour received from well-off members of the Society. The funds provided by the well-wishers of school aren't enough to fulfill the expenses required to develop required infrastructure to cater the need of the area. We are working hard to make both ends meet and hope for help coming our way, for the proper execution of the tasks set ahead.

### **HAMARA SCHOOL Mallah Ka Nagla, Aligarh.**

This is the first school established by the group. The school is running in a rented premise of eight rooms and other facilities in an area of about 160 square yards. The school operates in two shifts (day and evening).

**DAY SHIFT:** In the day shift the school offers education to the student from Standard; Pre-Nursery to Class V. The basic focus of the school is to provide training to push them into formal setup of mainstream schools but proper division is necessary for effective training. There are 300+ students. Due to space constrain the school offers admission to limited students in each class.

**EVENING SHIFT:** The evening shift is only for those students who have been admitted to the formal education system (FORMAL SCHOOLS OF ALIGARH). Teachers have been appointed to guide the students to complete their home works, check their diary, to solve their problems related to their studies. Apart from the routine works, the teachers also guide and counsel them. Total number of students in this shift is 79.

### **Hamara SCHOOL Street No. 7, Branch Shehanshabad, Aligarh.**

This school started in the year 2017 to provide an education set up at Shehanshabad one of the downtrodden locality with more than 5000 underprivileged people. The school is running in a rented premise of 5 rooms with lobby and other facilities in an area of about 300 square yards. The school operates in Morning shifts.

**Morning SHIFT:** In the day shift the school offers education to the student from Standard; Pre-Nursery to Class 1. The basic focus of the school is to provide training to push them into formal setup of mainstream schools but proper division is necessary for effective training. There are 150 students. Due to space constrain the school offers admission to limited students in each class.

## 6. Introduction To Teaching and Non-Teaching Staff

### TEACHING & NON TEACHING STAFF

S.No.	NAME	DESIGNATION	ADDRESS
1.	<b>Miss. Aisha Afsar</b> M.A. Philosophy, AMU, Aligarh. NTT	Head Mistress	Street No. 4, Mallah Ka Nagla, Aligarh.
2.	<b>Mr. Abdul Samad Wani</b> B.A (Hons) Economics Jamia Millia Islamia, New Delhi	Administrative Officer	Street No. 05, Lane 5/3, Patwari Nagla Aligarh
3.	<b>Mr. Ziaur Rehman</b> B.C.A, Aligarh.	Coordinator cum PRO	Pahasu House Compound, Civil Lines, Aligarh.
4.	<b>Miss. Asma Ansari</b> M.A. Urdu, AMU, Aligarh.	Office Assistant	Street No. 2, Jeevangarh, Aligarh.
